Presenting

ALLERVONTM-FX Tablets

(Fexofenadine Hydrochloride 120mg & Montelukast Tablets)

THE DUAL-ACTION SHIELD AGAINST ALLERGIC

Allervon-FX is a premium combination of Fexofenadine Hydrochloride and Montelukast, specifically designed to provide comprehensive relief from seasonal and perennial allergic rhinitis.

- **Powerful Dual Action:** Combines a second-generation antihistamine (Fexofenadine) with a potent leukotriene receptor antagonist (Montelukast) for superior symptom control.
- **Non-Sedating Relief:** Fexofenadine provides effective relief without causing drowsiness, allowing patients to remain active and productive throughout the day.
- **Long-Lasting Efficacy:** Provides 24-hour protection with a convenient once-daily dosage.
- **Comprehensive Airway Care:** While Fexofenadine tackles immediate surface symptoms, Montelukast works deeper to reduce inflammation and congestion in the nasal passages.

IN

- Allergic Rhinitis (Seasonal & Perennial)
- Allergic Asthma associated with Rhinitis.
- Chronic Urticaria (Hives)
- Nasal Congestion and Inflammation

In Allergic Conjunctivitis

Presenting

OLORELIEF-KTTM

Eye Drops

(Olopatadine Hydrochloride 0.1%w/v & Ketorolac Tromethamine 0.4%w/v Ophthalmic Solution IP)

DOUBLE ACTION FOR INSTANT RELIEF

In Olorelief-KT

- **Olopatadine 0.1%:** Acts as a highly selective antihistamine and mast cell stabilizer. It provides rapid relief from intense itching and prevents the further release of inflammatory mediators.
- **Ketorolac 0.4%:** As a potent NSAID, it targets the prostaglandins to effectively reduce ocular pain, soreness, and redness.
- **The Trehalose Advantage:** Our formula includes Trehalose, which protects the corneal surface from desiccation and ensures better comfort during the healing process.

“Stop the Itch, Strike the Pain—With Olorelief-KT”

IN

- Allergic Conjunctivitis and Ocular itching

In Allergic Conjunctivitis

Presenting

OLORELIEFTM

Eye Drops

(Olopatadine Hydrochloride Ophthalmic Solution IP 0.2%w/v)

INSTANT RELIEF FROM OCULAR ALLERGY

- **Dual-Action Strength:** Olopatadine acts as both a potent antihistamine and a mast cell stabilizer.
- **Rapid Relief:** It begins working within minutes to stop the itching and significantly reduce redness.
- **Long-Lasting Efficacy:** The 0.2% concentration provides extended protection, ensuring patient comfort throughout the day.
- **Gentle Formulation:** Formulated in a sterile aqueous base with a Stabilized Oxychloro Complex, ensuring safety and stability for the patient.

"Mastering the Itch, Restoring the Vision."
